

Japan Security Products and Services

AN IDC CONTINUOUS INTELLIGENCE SERVICE

Internet related businesses are growing rapidly in Japan due to the availability of high speed, low cost broadband networks. However issues including data leakages, credit card frauds, and compliance still persist. IDC's Japan Security Products and Services analyzes the evolving security market in Japan including security hardware, software, and services. This study provides in-depth and detailed analyses of security product vendors, service providers, and end-users with market forecasts, product trends, vendor strategies, and vendor rankings.

Markets and Subjects Analyzed

- IT Security Products and Services Market Trends
- IT Security Market Strategies of Major Vendors
- IT Security Market Forecast by Category

Core Research

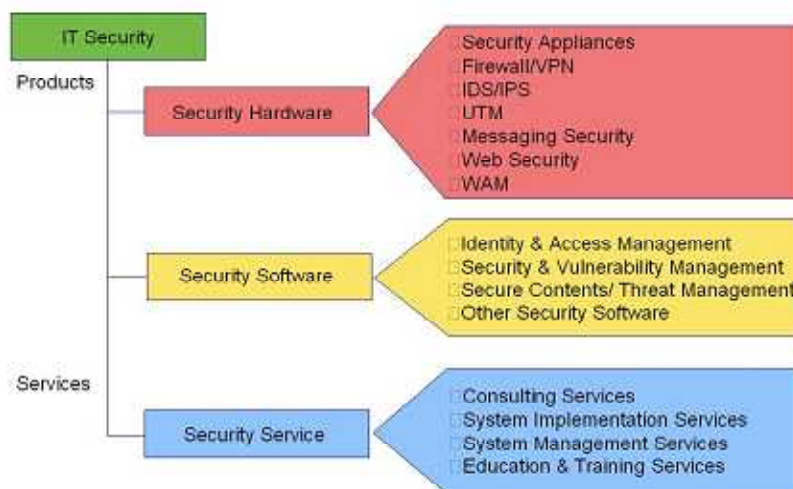

- Security Software, Hardware and Services 2010-2014 Forecast and 2009 Analysis
- Secure Content and Threat Management Software
