

Japan Storage Systems with Vertical Views

AN IDC SPECIAL INTELLIGENCE SERVICE

IDC has noted that storage systems are playing an important role in the Japan IT infrastructure market. The availability of networked storage has also changed market and supplier strategies. IDC's Japan Storage Systems with Vertical Views provides in-depth analysis, forecast and supplier strategies for various segments of Japan storage systems market and offers a detailed latest vertical market trends. All studies are designed to guide strategic and tactical planning, product management and development, and marketing strategies.

Markets and Subjects Analyzed

- Disk Storage Systems
- SAN (Storage Area Network)
- NAS (Network Attached Storage)
- Fibre Channel Switches
- Tape Drive and Tape Automation
- Disk Storage Systems by Vertical and Company Size

Core Research

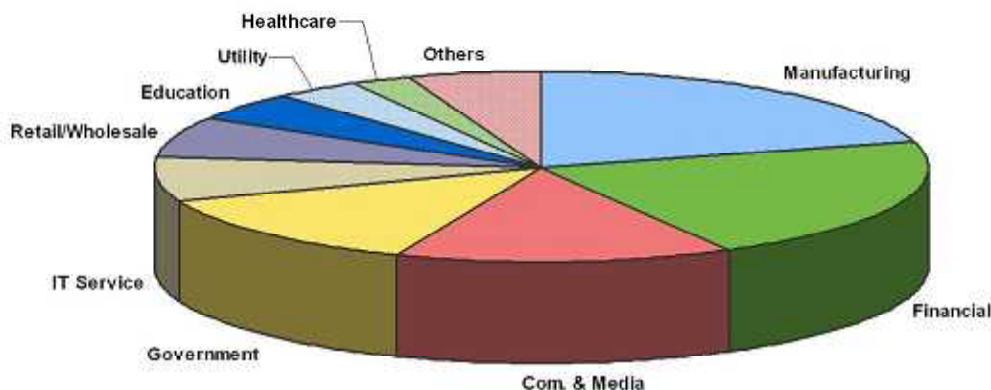

- Japan Disk Storage Systems 2010-2014 Forecast 2009 and Vendor Shares
- Japan Disk Storage Systems 2010-2014 Forecast 2010H1 and Vendor Shares
- Japan Disk Storage Systems 2010-2014 Forecast by Vertical and 2009 Review
- Japan Disk Storage Systems 2010-2014 Forecast by Vertical and 2010H1 Review
- Japan Tape Drive and Tape Automation 2010-2014 Forecast 2009 Vendor Shares
- Japan SAN Infrastructure 2010-2014 Forecast 2009 Vendor Shares

In addition to the insight provided in this service, IDC may conduct research on specific topics or emerging market segments via research offerings that require additional IDC funding and client investment. Competitive Analysis

This service reviews strategies, market positioning, and future direction of several providers in the storage, including:

3PARdata, Agilent, Apple, Brocade, Cisco, Dell, EMC, Fujitsu, Hitachi, HP, IBM, Isilon Systems, Iomega, NEC, Newtech, Network Appliance, Nissho Electronics, Panasonic, Qlogic, Quantum, Seagate, SGI, Sony, Sun Microsystems, Tandberg Data, Tokyo Electron, Toshiba, and Unisys.

Related Offerings

IDC provides you with the necessary intelligence to optimize, guide and support all aspects of the business planning life cycle from strategy and budget planning, through implementation, to ongoing measurement and assessment of results. Take advantage of these and other related offerings:

Consulting: Target growth opportunities and develop strategies for emerging markets and technologies, market sizing and segmentation, and global partner strategies, and create awareness for your products and services. Custom engagements leverage the unique strengths of IDC global technology analysts and local market analysts. Tailored offerings, such as business value (ROI) analysis, use IDC-branded content and tools to help you accelerate the sales cycle and powerfully communicate to your prospects.

Events: Network with industry colleagues and gain practical and strategic insights from groundbreaking research presented by IDC and industry experts. IDC events bring together technology buyers looking for the latest best practice research and sellers offering insights into how decision makers can use technology to gain competitive advantage and improve business value.

Go-to-Market Services: Leverage IDC content and custom services to support your most critical marketing initiatives as well as reach appropriate technology purchasers and influencers. The Go-to-Market Services expertise, flexible business model, and range of offerings provide you with effective marketing solutions ranging from a single call-to-action incentive to a broad global media campaign.

Industry Insights: Develop effective vertical market strategies that create competitive advantage with the research-based advisory and consulting services from Industry Insights. Industry Insights' end-user best practice and benchmarking research helps executives drive technology-enabled business innovation within industries including energy, financial, government, health, manufacturing and retail.
