

Japan Quarterly Enterprise Storage Systems Tracker

Enterprise storage systems are playing an important role in the Japan IT infrastructure market. The new storage technologies such as flash storage have also changed market and supplier strategies. IDC's *Japan Quarterly Enterprise Storage Systems Tracker*® provides in-depth analysis on supplier revenue, units, and terabyte shipments by vendor in the Japan enterprise storage systems market. All studies are designed to guide strategic and tactical planning, product management and development, and marketing strategies.

Technology Coverage

This tracker provides total market size and vendor share for the following technology areas. Measurement for this tracker is in shipments, capacity, and vendor revenue.

Core Coverage:

- External, internal, and ODM direct
 - Storage area network (SAN), network-attached storage (NAS), and direct-attached storage (DAS)
 - Media type (external and internal): Flash and HDD
 - Storage array type (external): All-flash array, hybrid flash array, and all HDD array
-

Geographic Scope

- Japan
-

Deliverables

This tracker is delivered on a quarterly basis with tools such as pivot tables. Deliverables for this tracker are listed below. For a complete delivery schedule, please contact an IDC sales representative.

- Historical data

IDC's Tracker Methodology

IDC's tracker data is developed using a rigorous methodology that includes well-planned and well-coordinated local, regional, and worldwide data cross-checks combined with a proprietary advanced data consolidation and analysis data platform managed by IDC's Worldwide Tracker organization. Data sources used in the process of determining IDC's tracker numbers include, but are not limited to:

- In-country local vendor interviews
- Distribution data feeds
- Worldwide and regional vendor guidance
- ODM data
- In-country local channel partner discussions
- Import records
- Feedback from component suppliers
- Vendor briefings and public financial reports

Enabling Better Business Decisions Across the Organization

IDC trackers provide the accurate and timely market size, vendor share, and forecast information you need to identify market and product expansion opportunities, increase revenues, and win market share. IDC's tracker research is a critical input to the planning and monitoring cycles of the business process. Common uses of the tracker data include:

Planning Process

- Regional, state or city-level planning — setting regional, country, state or city-level sales targets based on market opportunity
- Product marketing — creating a product strategy and road map based on currently available product features and expected growth
- Production planning — using customer demand data as an input in the creation of production schedules
- Product portfolio planning — accessing accurate and detailed data as an input into the product development process

Monitoring Process

- Performance measurement — comparing vendor performance on prior fiscal periods
- Competitive analysis — reviewing competitor performance across multiple dimensions: product, features, channel, segment, geography
- Sales forecasting measurement — assessing internal sales forecast versus actual results
- Price benchmarking — comparing vendor versus market pricing data by model
- Marketing communications — using positive results for messaging in the press, at partner events, or in sales collateral

IDC's Global Tracker Process at Work

Tracker is a registered trademark of International Data Group, Inc.

International Data Corporation (IDC) is the premier global provider of market intelligence, advisory services, and events for the information technology, telecommunications, and consumer technology markets. With more than 1,100 analysts worldwide, IDC offers global, regional, and local expertise on technology and industry opportunities and trends in over 110 countries. IDC's analysis and insight helps IT professionals, business executives, and the investment community to make fact-based technology decisions and to achieve their key business objectives. Founded in 1964, IDC is a subsidiary of [IDG](#), the world's leading technology media, research, and events company. To learn more about IDC, please visit www.idc.com.
