

Japan Storage Systems with Vertical Views

AN IDC SPECIAL INTELLIGENCE SERVICE

Storage systems are playing an important role in the Japan IT infrastructure market. The availability of networked storage has also changed market and supplier strategies. IDC's *Japan Storage Systems with Vertical Views* service provides in-depth analysis, forecasts, and supplier strategies for various segments of the Japan storage systems market and offers a detailed analysis of the latest vertical market trends. All studies are designed to guide strategic and tactical planning, product management and development, and marketing strategies. This service focuses on the research of storage systems for virtualization environments, storage systems for the cloud, and flash storage to understand the transformation of IT to the 3rd Platform.

Markets and Subjects Analyzed

- Enterprise storage systems
- Flash storage
- SAN and NAS
- Tape storage
- Storage network infrastructure
- Storage for the cloud

Core Research

- Japan Enterprise Storage Systems Forecast and Share
- Japan Enterprise Storage Systems Forecast and Share by Vertical
- Japan Tape Storage Forecast
- Japan Storage Networking Forecast
- Japan Flash Storage Forecast and Share
- IDC FutureScope: Worldwide Enterprise Infrastructure 2017 Predictions — Japan Implications

In addition to the insight provided in this service, IDC may conduct research on specific topics or emerging market segments via research offerings that require additional IDC funding and client investment. Key Questions Answered

1. What are the key success factors in the storage business in Japan?
2. How will flash storage impact the disk storage systems market in Japan?
3. What factors drive market demand for flash storage in Japan?
4. What is the impact of D2D and D2D2T solutions on the tape storage market in Japan?
5. What are the noteworthy characteristics of storage investment by vertical segment in Japan?
6. What are the fastest-growing vertical segments in the Japan disk storage systems market?

Companies Analyzed

This service reviews the strategies, market positioning, and future direction of several providers in the Japan storage systems market, including:

Actifio, Brocade Communications Systems, Cisco Systems, Cloudian, DataDirect Networks, Dell, EMC, F5 Networks, Firefox, Fujitsu, Hewlett Packard Enterprise, Hitachi, IBM, NEC, NetApp, Newtech, Nihon

Unisys, Nimble Storage, Nutanix, Oracle, Panasonic, Pure Storage, QLogic, Quantum, Red Hat, SanDisk, SGI, Sony, Tandberg Data, Tintri, Tokyo Electron, Toshiba, and Violin Memory.

IDC Products and Services: Solving Business Challenges on the 3rd Platform

Whether you are an IT buyer or a technology supplier, IDC's offerings help you make fact-based decisions on technology purchases and business strategy. In addition to our portfolio of over 1,000 worldwide research services, we provide a full range of custom solutions, events and decision making tools for every stage of your business planning. With dedicated lines of business targeting energy, financial services, government, healthcare, manufacturing, and retail, IDC provides unmatched integration of global technology and vertical industry expertise to deliver industry-specific customer intelligence that gives you a powerful business advantage.
